

Letter of Recommendation

To whom it may concern,

This is to certify that Mr. Gali Ravi Praveen, from BML Munjal University, successfully completed a project entitled “Depression Detection” with Sabudh Foundation for a duration of 6 months from June 2022 to November 2022. He worked as the backend developer in the Project.

As his mentor, I have found him an inspired and diligent professional. He used his superior understanding of backend development to work on the Depression Detection Project. He is a great team player.

He is a highly talented individual with excellent technical skills and possesses a fantastic approach to deal with all kinds of complicated tasks. I believe that his hunger will lead him to climb up the ladders of success.

I was happy to see his aspirations for higher studies and have faith in him that he will make the most out of his studies.

Please feel free to reach out to me if you have any questions or concerns.
